### NO MORE CATARRH

Get Rid of That Sourness, Gas and Indigestion.

Cotarrh cures come and catarrh cures go, but Hyonel continues to heal salarrh and abolish its disgusting st, mptoms wherever civilization exists. Every year the already enormous gales of this really scientific treatment for catarrh grow greater, and the present year should show all records broken.

If you breathe Hyonel daily as all-records to the will be supported by the country of the countr

recied it will end your extarch, or it won't cost you a cent.

If you have a hard rubber Hyomei inhaler somewhere around the house, got it out and start it a conce to ferever rid yourself of caturch.

A. A. Clarke, or any other good druggist, will sell you a loctte of Hyomei (liquid), start to breathe it and notice how quickly it clears out the air passagre and makes the entire head feel dise.

Hyomei used regularly will end entarch, coughs, colds, bronchilds, or asthma. A complete outfit, including a hard rubber pocket inhaler and bottle of Hyomei, coste but little. No stomach dosing: just breathe it. It kills the germs, snothes and heals the inflammed membrane—Adv.

### POWERFUL PILE REMEDY DISCOVERED

Hau Never' Failed to End Most Obstinate Chae of Flice in Few Days.
For years it has been proved that so-called external ramedies applied to or inserted in the rectum cannot cure was, and at the best can only give temporary rolief. Surgical operations, also do not remove this cause, but simply the formation.
This wonderful prescription, known as Miro Flie Remedy, is so efficient in the treatment of piles, that even chronic causes of from 20 to 30 years standing with profuse bleeding have been completely cured in from three to ten days. Think of it! Just a few dores of a carefully balanced prescription and the most persistent case of piles is absorbed, never to return.

## He Was "Broken"

Capt. Wallace, U.S. A., was a victim of sinister forces that sought to betray

America to the enemy. But he "came back." On the battlefields of France he fought for the honor of the army that had discarded him. He lived to win vindication and the hand of the "daughter of the regiwho had never ment" doubted him.

# DISTINCTIVE AUTUMN APPAREL

The new Fall fashions for women, misses, juniors, and girls that are now being displayed and on sale at our stores, are distinctive autumn styles. There is a line of Coats for women, misses, and children; they are especially distinctive, featuring beautiful fabrics, many of them with fur collars, fur pockets and cuffs; others plain. This is a very attractive collection of misses and juniors suits, coats, and dresses; exclusive styles. If you have never bought this class of goods from a Union Supply Company store, it would be to your interest to investigate before you make your fall purchases. Many women get the habit of going to the nearby towns to buy their coats and suits, dresses, and material for women's, misses', and children's clothing. It would be to your interest to first investigate what you can do at your home store. Invariably you will find the stocks equally as good and a more important matter, you will find the prices much lower. Now try it; it is no trouble for our stores to show goods, we invite you to inspect—you are under no obligation to buy whatever. During the entire autumn or winter season there will be new goods coming in weekly, but just at the present time the stocks are at their best, and to women anticipating buying any sort of wraps or other raiment, it would be wise for you to look around now.

"Devisor treasurer of the National

Council Activities," answers Mrs. Henry P. Davison, treasurer of the National Board Y. W. C. A.

The hostess houses are the homes that serve the centre nation. No hostess house is built except at the direct request of the commanding officer, and each house has its individuality. They have been erected by the Y. W. C. A. at the request of the government as an enswer to the problem of what to do with the women relatives and friends, and the men also, who come to visit the soldiers either while in training or on route to France. The need was the soldlers either while in training or or route to France. The need was first brought sharply to the attention of the government in the early days of the war at Plattsburg. Then women waited in mud, the consistency of glue under any improvised shelter they could find to see their men, or froze in an uncompromising atmosphere of 40 below. Then the government inalized that women will spend their last penny and endure almost any hardship to say a last forewell to their men tolk before they embark for France.

Miss Vera Shaefer, representative of the War Work Council in the north-

eastern field, had proviously encountered the problem in her work among women on the Mexican border. Two weeks after the S O S came from the commanding officer at Plattsburg, Miss Shaefer had the first hostess house erected and ministering to the needs of women visitors. Since then the work has grown to nation wide proportions, with over 90 hostess houses in or near the army and nevy military camps from the Atlantic to the Pacific, with more being erected as fast as labor and lumber can be secured. New Jersey has

being erected as fast as infor and number can be secured. New Jersey has Y. W. C. A. hosters houses at Camp Dix and Camp Merritt.

No doubt it elephants proved a necessity to the comfort of the army or its friends on this side of the Atlantic the hostess houses would have them. Our doughboy may have eraggerated a bir, but he has learned to ask for what Our congular has have tragger and the wants, and generally secures it if it is in the power of the hosters to get it for him, from a room for his mother overnight to a marriage license for if on a few hours' notice.

### Psychology of War On Women's Dress

By LENA MADESON PHILLIPS v. W. C. A. National Board Secretary for Business Women.

Work while you work and primp at home" is the new slog in for the woman in business. With the call to her new duties brought about by war has come to woman the knowledge hat to succeed in business she cannot think of her clothes during office hours. and respect for dignity does not go with a neck too exposed for business. Again women are learning that a husiness proposition is not an ante-room to marrimony. While it goes without saying that for the average woman marriage is a state both right and greatly to be desired, it by no means justifies her using her place in the business world primarily as a means of securing a possible husband. The woman today who wishes to fill place in the business world until a piece in the total state of the state of t first permanently, must surrender her-self to the took she has chosen in no half hearted way. Employment must cease to be merely a megns of scene-

ing money for alluring clothes.

Women are fast learning that if
they desire equal pay for equal work
the first emphasis must be placed on the work. The time has come when they must cease to demand both the rights of men and the privileges of women. If they desire to be colaborars with men in the business world, with equal opportunities and equal pay, they must face business with a man's steadinsiness of purpose and real destre to succeed. The business woman of today must be willing to forego such styles of dress as will distract from the business in hand and surround them with a sex conscious ness which is not conducte to solid work nor to sound morals.
